Subject: Protect Portland's industrial jobs

The Lower Willamette has long been a vital recreational and community asset that defines the entire Portland region. But for just as long it has been the backbone of Portland's---indeed much of Oregon's---economy, providing abundant family wage jobs and driving the state's strength in the traded sector.

It is with these factors in mind that I ask EPA to approve a cleanup plan that takes a balanced and reasonable approach, helping to protect our economic lifeblood just as it uses cost-effective methods to ensure the river's environmental safety for years to come.

Thank you for considering my concerns. I hope you will agree that we need to do all we can to support Portland's environment and economy.

Sincerely,
(b) (6)
